## Education

---

PhD, Public Policy, Cornell University

Expected May 2028

*Concentration in Economics*

MA, Public Policy

BA, Economics & Environmental Studies, Colgate University

2022

*summa cum laude*

*High Honors in Economics*

## Research Interests

---

Health Economics, Maternal Health, Environmental Economics, Gender in the Economy

## Research

---

### Peer Reviewed Publications

Sassler, Sharon, and **Gabrielle Sorresso**. 2026. Narrowing the Gender Wage Gap among Computer Science Professionals: What Differentiates the Earnings of Asian and White Workers? *RSF: The Russell Sage Foundation Journal of the Social Sciences*, 12(3): 98–123.

### Working Papers

It Was Already Dobbs: Abortion Bans and Maternal Health

*Supported by a grant from the Horowitz Foundation for Social Policy*

The Supreme Court’s decision in *Dobbs v. Jackson Women’s Health Organization* raised concerns that strict state abortion bans would worsen maternal health through delayed emergency care, restricted access to terminations, and reduced OB-GYN supply. Using claims data for nearly one million pregnancies among commercially and Medicaid-insured women from 2020 to 2024, I estimate the effect of these bans in a staggered difference-in-differences design using states that protect abortion rights as controls. Effects on routine care-receipt outcomes are small and precisely estimated; the adverse-pregnancy-outcome composite rules out effects larger than 3.5% of the pre-policy treated mean. Neither shifts in pregnancy composition nor changes in OB-GYN supply explain these results. These findings suggest telehealth abortion access may have absorbed much of the demand shock, while pre-ban restrictions had already limited the marginal effect of bans on downstream care.

First Do No Harm: The Labor Market Consequences of a Physician Disciplinary Record  
(Joint with Amanda Agan and Colleen Carey)

Using a novel dataset of 70,000 state medical board disciplinary actions across more than 40 states (2008–2023), we provide the first evidence on how State Medical Board discipline affects subsequent physician careers. Most disciplined physicians continue practicing—often in a new state and supplying fewer claims—evidence that can inform the optimal design of state oversight and disciplinary actions.

## Works in Progress

Childhood Air Pollution Exposure and Mental Health: Evidence from Claims Data

Born After Dobbs: Abortion Bans, Prenatal Diagnosis, and the Prevalence of Congenital Conditions

Inequality Within the Family or Within Professions? The Role of Assortative Mating in Shaping the Gender Wage Gap Among Power Couples (Joint with Sharon Sassler)

## Conference Presentations

Southern Economic Association (SEA) Scheduled, November 2026

Association for Public Policy Analysis and Management (APPAM) November 2025

## Teaching Experience

---

### Cornell University

PUBPOL 2210: Poverty and Public Policy  
Course Administrator for Maureen Waller Spring 2026

PUBPOL 2030: Population and Demography  
Teaching Assistant for Sharon Sassler Spring 2024

PADM 5310: Applied Multivariate Statistics in Public Affairs  
Teaching Assistant for Doug Miller Fall 2023

### Colgate University

ECON 375: Introduction to Econometrics  
Teaching Assistant for Carolina Castilla Fall 2021 & Spring 2022

## Awards and Fellowships

---

Irving Louis Horowitz Award for Most Outstanding Project (\$15,000) 2026

Outstanding Teaching Assistant Award, Cornell Brooks School Spring 2024

Exemplary Service Award, Cornell Brooks School 2023–2024

Sage Fellow, Cornell University 2022–Present

Award for Outstanding Work in Economics, Colgate University 2022
